

MEN'S ALTA XT JACKET

PRODUCT CODE: **MAXTJ**

DARK MAPLE

ECLIPSE BLUE GINKGO GOLD

Combining highly durable Gore-Tex Pro Shell with our BARRIER and STORMGUARD advanced construction techniques, the Alta XT excels in extreme conditions. Offering uncompromising attention to wet weather protection and full garment breathability. Vital features such as our PIVOT 3 hood, Twin YKK aquaguard zipped chest pockets and extended pit zip ventilation are carefully designed with gear compatibility in mind, working collectively to maximise functionality.

MATERIALS

- GORE-TEX PRO PRODUCTS
- Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a solution dyed micro grid woven backer. Utilising Gore's ePE membrane providing a PFC/PFAS free dwr and membrane technology.

FEATURES

- PIVOT 3 fully adjustable, helmet compatible hood system with integrated front mountain safe adjustment points, rear speed adjustment and additional hood volume reduction
- SEW-FREE fully bonded pocket and zip installs reduce construction and weight, improve comfort, breathability and packability – constructed to prioritise protection and performance
- A 25% reduction of seam tape improves FGB (Full Garment Breathability) and durability, reduces weight and construction *compared to AW24 equivalent products average
- Harness compatible construction removes seams from high wear areas for improved durability and comfort
- OFFSET seam intersections improve construction, durability and comfort
- STORM GUARD inner centre front zip placket
- BARRIER TECHNOLOGY at all apertures and hems helps prevent water ingress (stops wicking)
- Laminated peak, hems and cuff tabs reduces seams, weight and improves durability
- Fully adjustable hood, hems and cuffs for complete protection

- Utilizing premium Cohesive one handed adjustment system for hood and hem
- 2-way YKK Vislon Aquaguard Natulon recycled CF zip
- 2x SEW-FREE 24cm extended harness and pack compatible YKK AquaGuard Natulon recycled zipped chest pockets
- 2-way SEW-FREE 40cm extended YKK Aquaguard Natulon recycled pit zip ventilation
- Single bonded internal YKK Natulon recycled zipped chest pocket and OFFSET stash pocket
- Internal rear Neck Guard adds structure and helps protect against oil contamination
- Built on the Mountain Fit block with added volume to allow for technical layering systems, dropped rear hem for added protection, and sleeve articulation that prioritizes arm lift

WEIGHT (APPROX):

470g / 16.6oz

BACK LENGTH:

77.5cm (M)

MEN'S ALTA PANTS

PRODUCT CODE: **MALTP**

ECLIPSE BLUE

Combining highly durable Gore-Tex Performance Shell with our BARRIER and STORMGUARD advanced construction techniques, the Alta Pant excels in extreme conditions. Offering uncompromising attention to wet weather protection and full garment breathability. Vital features such as our lightweight Bib, YKK aquaguard zipped thigh pocket and adjustable reinforced hems are carefully designed with gear compatibility in mind, working collectively to maximise functionality.

MATERIALS

- GORE-TEX PRODUCTS WITH GORE PERFORMANCE TECHNOLOGY Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a nylon tricot backer. Utilising Gore's ePE membrane providing a PFC/PFAS free dwr and membrane technology.
- SCHOELLER® KEPROTEC® Lightweight and hard-wearing. Enhanced abrasion resistance.

FEATURES

- SEW-FREE fully bonded pocket and zip installs reduce construction and weight, improve comfort, breathability and packability – constructed to prioritise protection and performance
- A 25% reduction of seam tape improves FGB (Full Garment Breathability) and durability, reduces weight and construction *compared to AW24 equivalent products average
- OFFSET seam intersections improve construction, durability and comfort
- STORM GUARD inner side zip placket
- BARRIER TECHNOLOGY at all apertures and hems helps prevent water ingress (stops wicking)
- Internal bonded Bemis ankle reinforcement for added timeless durability
- Built with a stretch fit bib for a secure protective closure and fit
- 2-way full length YKK Aquaguard Natulon recycled side zip offers full versatile access, drop seat functionality and adaptable ventilation

- Detachable braces offer additional fit adaptability, security and comfort
- Single bonded SEW-FREE YKK Aquaguard Natulon recycled zipped thigh pocket
- CF fly with 2-way YKK Aquaguard Natulon recycled zip
- Mountain and ski boot compatible hem with internal bonded gaiter to ensure optimum fit with a variety of footwear
- Mountain Fit with added volume to allow for technical layering systems, and built in articulation that prioritises dynamic movement

MEN'S NIVEUS LITE JACKET

PRODUCT CODE: **MNILJ**

CITRUS SPRING

ECLIPSE BLUE

Built to accommodate unpredictable mountain conditions, ideal when in combination with highly breathable softshells, this lightweight and highly packable GORE-TEX shell is built for fast and light ski adventures.

USP

- RESPONSIBLE PERFORMANCE - Using the new GORE-TEX ePE membrane for trusted high performance weather protection with a reduced environmental impact
- MOISTURE MANAGEMENT - Suitable for both ascents and descents, large pit-zips alongside breathable GORE-TEX fabric allow for adaptable moisture management
- EFFICIENT PERFORMANCE - Weighing only 360g (Men's Medium), essential features are critically engineered for maximum performance and minimal weight

MATERIALS

- Main - GORE-TEX 3L ePE 100% Nylon (recycled) 20D Ripstop weave with C-Knit backer offers reliable wet weather protection (28k Hydrostatic Head) and excellent breathability (RET <13)
- Snow Skirt - PEAQ 100% Nylon (recycled) 20D plain weave lining

FEATURES

- OFFSET seam intersections improve construction, durability and comfort
- Laminated peak, hems, cuff tabs and snow skirt reduces seams, weight and improves durability
- Built with the movement patterns of the wearer in mind, the new trim fit provides uninhibited comfort and performance whilst allowing for correct layering for active use
- Helmet compatible hood with full adjustment for complete protection
- Articulated sleeves with grown on hook and loop adjustment
- Fully adjustable hem

- Extended pit-zip ventilation allows for adaptable moisture management
- YKK 2 way AQUAGUARD centre front zip
- YKK AQUAGUARD zipped hand pockets with internal drop pocket for quick access to vital carry
- Low profile snow skirt for lightweight protection against snow ingress
- Trim fit

MEN'S PHASE JACKET

PRODUCT CODE: MPHJA

DARK MAPLE

CAPER

BLACK

Utilising Gore-Tex ePE performance shell, the Phase jacket is designed for versatility with a perfect balance of durability performance and comfort. With a focus on comprehensive wet weather protection, essential features such as PIVOT 2 fully adjustable hood, pack compatible weatherproof hand pockets and extended body length ensure performance in storm level conditions. Alongside advanced construction techniques such as BARRIER and STORMGUARD systems, our precise ergonomic fit enable to Phase jacket to maximise weatherproof performance and full garment breathability.

MATERIALS

- GORE-TEX PRODUCTS WITH GORE PERFORMANCE TECHNOLOGY
- Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a nylon tricot backer. Utilising Gore's ePE membrane providing a PFC/PFAS free dwr and membrane technology.

FEATURES

- PIVOT 2 adjustable hood system with separate aperture and crown adjustment
- SEW-FREE fully bonded pocket and zip installs reduce construction and weight, improve comfort, breathability and packability - constructed to prioritise protection and performance
- Maximised FGB (Full Garment Breathability) with breathable Air-Line pocket liners that provide a 1400cm² area of more breathable construction *average across styles
- OFFSET seam intersections improve construction, durability and comfort
- STORM GUARD inner CF zip placket
- BARRIER TECHNOLOGY at all apertures and hems helps prevent water ingress (stops wicking)
- Laminated peak, hems and cuff tabs reduces seams, weight and improves durability
- Fully adjustable hood, hems and cuffs for complete protection
- Utilizing premium Cohesive one handed adjustment system for hood
- 2-way YKK Aquaguard Natulon recycled CF zip

- Covered YKK Aquaguard Natulon recycled zipped hand pockets offer trustworthy, additional wet weather protection
- 2-way SEW-FREE 32cm YKK Aquaguard Natulon recycled pit zip ventilation
- Single bonded internal YKK Natulon recycled zipped chest pocket
- Internal rear Neck Guard adds structure and helps protect against oil contamination
- Built on the Regular Fit block with a standard fit and additional length for optimum coverage providing full wet weather protection

MEN'S PHASE PANTS-REG LEG

PRODUCT CODE: MPHAP

BLACK

Built for changeable conditions, the Phase Pant is designed for adaptable high performance wet weather protection. Balancing lightweight packability with trustworthy protection, the Phase pant utilises Gore-Tex ePE performance shell alongside an essential feature set to maximise comfort whether on your legs or in your pack. Essential features such as adjustable, low profile elasticated waistband and side seam YKK aquaguard zips ensure adaptability and ease of use, whilst advanced construction techniques such as BARRIER and STORM GUARD enhance weatherproof performance.

MATERIALS

- GORE-TEX PRODUCTS WITH GORE PERFORMANCE TECHNOLOGY Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a nylon tricot backer. Utilising Gore's ePE membrane providing a PFC/PFAS free dwr and membrane technology.
- SCHOELLER® KEPROTEC® Lightweight and hard-wearing. Enhanced abrasion resistance.

FEATURES

- A 30% reduction of seam tape improves FGB (Full Garment Breathability) and durability, reduces weight and construction *compared to AW24 Phase Pant
- OFFSET seam intersections improve construction, durability and comfort
- STORM GUARD inner side zip placket
- BARRIER TECHNOLOGY at all apertures and hems helps prevent water ingress (stops wicking)
- Internal bonded Bemis ankle reinforcement for added timeless durability
- ¾ length YKK Aquaguard Natulon recycled side zip offers easy access and adaptable ventilation
- Braces loops offer additional fit adaptability and comfort
- Elasticated and hook-&-loop adjustable waist provides security and adaptability
- CF fly with YKK Natulon recycled zip
- Inner hem adjustment for an adaptable fit

- Regular Fit for a standard fit for core outdoor activities, and maximum coverage for wet weather protection

Minimalist elasticated waistband gives lightweight comfort and works alongside the YKK zipped ankle opening to ensure the pant is easy to get on and off.

MATERIALS

• PETRICHOR TECHNOLOGY - A 2.5 layer PU waterproof laminate using a 20 denier semi dull soft tricot knit face with an internal mesh print, incredibly lightweight, packable, and breathable. Utilising a non-fluorocarbon water repellent and membrane technology.

FEATURES

- Pull-on elasticated waist
- YKK NATULON® recycled zipped side ankle opening for easy on/off
- Raised rear waterproof yoke for additional protection
- Minimalist flat elasticated front waist and hems for a comfortable secure pull-up fit
- Offset seam intersections improve construction, durability and comfort
- A reduction of seams and tape improves FGB (Full Garment Breathability), durability, reduces weight and construction?
- Included CUBE stuff sack for efficient packability has been constructed to provide maximum fabric for use as a garment repair
- Active Fit which is close-fitting for fast-moving, active users and added articulation that prioritise dynamic forward movements

WOMEN'S ALTA XT JACKET

PRODUCT CODE: **FAXTJ**

DARK MAPLE

GINKGO GOLD

Combining highly durable Gore-Tex Pro Shell with our BARRIER and STORMGUARD advanced construction techniques, the Alta XT excels in extreme conditions. Offering uncompromising attention to wet weather protection and full garment breathability. Vital features such as our PIVOT 3 hood, Twin YKK aquaguard zipped chest pockets and extended pit zip ventilation are carefully designed with gear compatibility in mind, working collectively to maximise functionality.

MATERIALS

- GORE-TEX PRO PRODUCTS
- Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a solution dyed micro grid woven backer. Utilising Gore's ePE membrane providing a PFC/PFAS free dwr and membrane technology.

FEATURES

- PIVOT 3 fully adjustable, helmet compatible hood system with integrated front mountain safe adjustment points, rear speed adjustment and additional hood volume reduction
- SEW-FREE fully bonded pocket and zip installs reduce construction and weight, improve comfort, breathability and packability – constructed to prioritise protection and performance
- A 25% reduction of seam tape improves FGB (Full Garment Breathability) and durability, reduces weight and construction *compared to AW24 equivalent products average
- Harness compatible construction removes seams from high wear areas for improved durability and comfort
- OFFSET seam intersections improve construction, durability and comfort
- STORM GUARD inner centre front zip placket
- BARRIER TECHNOLOGY at all apertures and hems helps prevent water ingress (stops wicking)
- Laminated peak, hems and cuff tabs reduces seams, weight and improves durability
- Fully adjustable hood, hems and cuffs for complete protection

- Utilizing premium Cohesive one handed adjustment system for hood and hem
- 2-way YKK Vislon Aquaguard Natulon recycled CF zip
- 2x SEW-FREE 22cm extended harness and pack compatible YKK AquoGuard Natulon recycled zipped chest pockets
- 2-way SEW-FREE 38cm extended YKK Aquaguard Natulon recycled pit zip ventilation
- Single bonded internal YKK Natulon recycled zipped chest pocket and OFFSET stash pocket
- Internal rear Neck Guard adds structure and helps protect against oil contamination
- Built on the Mountain Fit block with added volume to allow for technical layering systems, dropped rear hem for added protection, and sleeve articulation that prioritizes arm lift

CORNFLOWER

ECLIPSE BLUE

Built to accommodate unpredictable mountain conditions, ideal when in combination with highly breathable softshells, this lightweight and highly packable GORE-TEX shell is built for fast and light ski adventures.

USP

- RESPONSIBLE PERFORMANCE - Using the new GORE-TEX ePE membrane for trusted high performance weather protection with a reduced environmental impact
- MOISTURE MANAGEMENT - Suitable for both ascents and descents, large pit-zips alongside breathable GORE-TEX fabric allow for adaptable moisture management
- EFFICIENT PERFORMANCE - Weighing only 340g (Women's UK10), essential features are critically engineered for maximum performance and minimal weight

MATERIALS

- Main - GORE-TEX 3L ePE 100% Nylon (recycled) 20D Ripstop weave with C-Knit backer offers reliable wet weather protection (28k Hydrostatic Head) and excellent breathability (RET <13)
- Snow Skirt - PEAQ 100% Nylon (recycled) 20D plain weave lining

FEATURES

- OFFSET seam intersections improve construction, durability and comfort
- Laminated peak, hems, cuff tabs and snow skirt reduces seams, weight and improves durability
- Built with the movement patterns of the wearer in mind, the new trim fit provides uninhibited comfort and performance whilst allowing for correct layering for active use
- Helmet compatible hood with full adjustment for complete protection
- Articulated sleeves with grown on hook and loop adjustment
- Fully adjustable hem

- Extended pit-zip ventilation allows for adaptable moisture management
- YKK 2 way AQUAGUARD centre front zip
- YKK AQUAGUARD zipped hand pockets with internal drop pocket for quick access to vital carry
- Low profile snow skirt for lightweight protection against snow ingress
- Trim fit

WOMEN'S PHASE JACKET

PRODUCT CODE: **FPHJK**

DEEP FOREST

MOONSCAPE

SUMAC

Utilising Gore-Tex ePE performance shell, the Phase jacket is designed for versatility with a perfect balance of durability performance and comfort. With a focus on comprehensive wet weather protection, essential features such as PIVOT 2 fully adjustable hood, pack compatible weatherproof hand pockets and extended body length ensure performance in storm level conditions. Alongside advanced construction techniques such as BARRIER and STORMGUARD systems, our precise ergonomic fit enable the Phase jacket to maximise weatherproof performance and full garment breathability.

MATERIALS

- GORE-TEX PRODUCTS WITH GORE PERFORMANCE TECHNOLOGY
- Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a nylon tricot backer. Utilising Gore's ePE membrane providing a PFC/PFAS free dwr and membrane technology.

FEATURES

- PIVOT 2 adjustable hood system with separate aperture and crown adjustment
- SEW-FREE fully bonded pocket and zip installs reduce construction and weight, improve comfort, breathability and packability – constructed to prioritise protection and performance
- Maximised FGB (Full Garment Breathability) with breathable Air-Line pocket liners that provide a 1400cm² area of more breathable construction *average across styles
- OFFSET seam intersections improve construction, durability and comfort
- STORM GUARD inner CF zip placket
- BARRIER TECHNOLOGY at all apertures and hems helps prevent water ingress (stops wicking)
- Laminated peak, hems and cuff tabs reduces seams, weight and improves durability
- Fully adjustable hood, hems and cuffs for complete protection
- Utilizing premium Cohesive one handed adjustment system for hood
- 2-way YKK Aquaguard Natulon recycled CF zip

- Covered YKK Aquaguard Natulon recycled zipped hand pockets offer trustworthy, additional wet weather protection
- 2-way SEW-FREE 30cm YKK Aquaguard Natulon recycled pit zip ventilation
- Single bonded internal YKK Natulon recycled zipped chest pocket
- Internal rear Neck Guard adds structure and helps protect against oil contamination
- Built on the Regular Fit block with a standard fit and additional length for optimum coverage providing full wet weather protection

WOMEN'S PHASE PANTS-REG LEG

PRODUCT CODE: **FPHAP**

BLACK

Built for changeable conditions, the Phase Pant is designed for adaptable high performance wet weather protection. Balancing lightweight packability with trustworthy protection, the Phase pant utilises Gore-Tex ePE performance shell alongside an essential feature set to maximise comfort whether on your legs or in your pack. Essential features such as adjustable, low profile elasticated waistband and side seam YKK aquaguard zips ensure adaptability and ease of use, whilst advanced construction techniques such as BARRIER and STORM GUARD enhance weatherproof performance.

MATERIALS

- GORE-TEX PRODUCTS WITH GORE PERFORMANCE TECHNOLOGY Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a nylon tricot backer. Utilising Gore's ePE membrane providing a PFC/PFAS free dwr and membrane technology.
- SCHOELLER® KEPROTEC® Lightweight and hard-wearing. Enhanced abrasion resistance.

FEATURES

- A 30% reduction of seam tape improves FGB (Full Garment Breathability) and durability, reduces weight and construction *compared to AW24 Phase Pant
- OFFSET seam intersections improve construction, durability and comfort
- STORM GUARD inner side zip placket
- BARRIER TECHNOLOGY at all apertures and hems helps prevent water ingress (stops wicking)
- Internal bonded Bemis ankle reinforcement for added timeless durability
- ¾ length YKK Aquaguard Natulon recycled side zip offers easy access and adaptable ventilation
- Braces loops offer additional fit adaptability and comfort
- Elasticated and hook-&-loop adjustable waist provides security and adaptability
- CF fly with YKK Natulon recycled zip
- Inner hem adjustment for an adaptable fit

- Regular Fit for a standard fit for core outdoor activities, and maximum coverage for wet weather protection

WOMEN'S MINIMUS LITE JACKET

PRODUCT CODE: **FMLIJ**

ECLIPSE BLUE **NEW**

LAVA
NEW

LILAC HAZE
NEW

Lightweight essential wet weather protection, the Minimus Lite Jacket has been expertly designed to perform in fast and light adventures. Engineered with PERTEX Shield, the highly waterproof membrane is protected by the highly durable 40D nylon face fabric, whilst the protective backer print increases packability and next to skin comfort. Essential features such as the fully adjustable hood, cuffs and hem allow for adjustment on the move, whilst the YKK zipped Chest pocket keeps carry secure and close to hand

MATERIALS

- PERTEX® SHIELD - A 2.5 layer laminate using a recycled 40 denier full dull ripstop woven face textile combined with a super thin waterproof, windproof polyurethane membrane (non-fluorocarbon water repellent and membrane). A grey backer with protective print.

FEATURES

- Pivot 1 adjustable hood system with integrated aperture and crown adjustment through a single rear speed pull system for fast lightweight adjustment
- Storm Guard inner CF zip placket
- A reduction of seams and tape improves FGB (Full Garment Breathability), durability, reduces weight and construction
- Offset seam intersections improve construction, durability and comfort
- Laminated peak reduces seams, weight and improves durability
- Flat stiffened peak with low profile structure
- Fully adjustable hood, hems and cuffs for complete protection
- YKK AQUAGUARD® NATULON® recycled front zip
- Exposed YKK AQUAGUARD® NATULON® recycled chest pocket for a lightweight construction
- 360 run specific reflective branding
- Built on the Trim Fit block which is close-fitting for fast-moving, active users and added articulation that prioritise dynamic forward movements

RIDGE

NEW

Built to offer exceptional levels of wind resistance and breathability, the Featherlite Hoodie has been designed for users that require high levels of wind protection whilst moving quickly through the mountains. All within a lightweight package. PERTEX QUANTUM AIR has been precisely engineered to offer the perfect balance of performance. Allowing any build up of moisture within the layering system to escape quickly whilst still retaining high level of wind resistance. Perfect for those who push further, faster. PIVOT 0 Hood, Elasticated cuffs and fully adjustable hem lock out cold winds whilst keeping the product as light as possible, whilst the YKK zipped pockets offer essential easy to reach carry.

PERTEX® QUANTUM

MATERIALS

- PERTEX® QUANTUM AIR
- A soft and quiet 12 Denier stretch nylon textured woven textile, engineered to optimise the balance between wind resistance and moisture vapour transmission combined with non-fluorocarbon water repellency . Offering exceptional comfort during high-paced activities.

FEATURES

- Updated Pivot 0 self-adjusting hood system for minimal, lightweight closure
- Updated cuff design with self-adjusting, minimal elastic closure
- Offset seam intersections improve construction, durability and comfort
- Self-adjusting hood and cuffs
- Fully adjustable hem
- Full length YKK NATULON® recycled front zip with internal wind strip
- Two YKK NATULON® recycled zipped hand pockets
- Built on the Regular Fit block with standard fit for core outdoor activities

PRODUCT CODE: **MZEPH**

PLATINUM **NEW**

ECLIPSE BLUE **NEW** DARK MAPLE **NEW**

Balancing exceptional moisture management and lightweight warmth, the Zepher fleece hoodie offers a new level of mid layer performance for those pushing their limits. OCTA 175 fabric uses innovative looped yarn, offering super light, quick drying warmth for its weight. Perfect for highly active mountain pursuits, the Zepher fleece hoodie has been constructed to maximise the fabrics performance. Low profile seams enhance comfort, whilst essential features including the secure chest pocket and thumb loops increase functionality to meet the demands of a wide range of environments.

MATERIALS

- OCTA® 175 - is an exceptionally unique fibre with a distinctive, highly modified cross-section with eight projections aligned in a radial pattern around a hollow fibre. Its unique construction makes the fabrics super light, quick drying, highly breathable and extremely warm for its weight. POLYGIENE® permanent odour control.

260g

BACK LENGTH:
72.5cm (M)

SIZES	S	M	L	XL	XXL

FEATURES

- Built to optimise the OCTA yarn for maximum thermal properties and minimal weight
- Built with premium construction techniques that are low profile to maximise comfort, performance, and minimise weight
- Constructed with minimal seams to maximise the stretch of the garment to ensure uninhibited movement during dynamic mountain activities
- Lightweight no.3 YKK NATULON® recycled zips reduce weight and improve layering ability
- Harness and pack compatible bonded chest pocket
- Minimal flat binding at hood, cuffs and hem for lightweight integrated adjustment
- Integrated soft elastic thumb loops keep jacket in place during dynamic activities
- Built on the Trim Fit as an efficient layering system, this jacket is designed to fit over a base layer, with unrestricted movement and comfort

OCTA 175 fabric used innovative looped yarn, offering super light, quick drying warmth for its weight. Perfect for highly active mountain pursuits, the Zepher fleece jacket has been constructed to maximise the fabrics performance. Low profile seams enhance comfort, whilst essential features including the secure chest pocket and thumb loops increase functionality to meet the demands of a wide range of environments.

MATERIALS

- OCTA® 175 - is an exceptionally unique fibre with a distinctive, highly modified cross-section with eight projections aligned in a radial pattern around a hollow fibre. Its unique construction makes the fabrics super light, quick drying, highly breathable and extremely warm for its weight. POLYGIENE® permanent odour control.

250g

BACK LENGTH:
72.5cm (M)

SIZES	S	M	L	XL	XXL

FEATURES

- Built to optimise the OCTA yarn for maximum thermal properties and minimal weight
- Built with premium construction techniques that are low profile to maximise comfort, performance, and minimise weight
- Constructed with minimal seams to maximise the stretch of the garment to ensure uninhibited movement during dynamic mountain activities
- Lightweight no.3 YKK NATULON® recycled zips reduce weight and improve layering ability
- Harness and pack compatible bonded chest pocket
- Minimal flat binding at cuffs and hem for lightweight integrated adjustment
- Integrated soft elastic thumb loops keep jacket in place during dynamic activities
- Built on the Trim Fit as an efficient layering system, this jacket is designed to fit over a base layer, with unrestricted movement and comfort

MEN'S MOSSA PANTS-REG LEG

PRODUCT CODE: **MMOPR**

RIDGE **NEW**

BLACK
NEW

The Mossa Pant has been engineered for performance on technical mountain terrain. Built using lightweight yet highly durable GRANITE STRETCH, enhanced articulation thought the pant works alongside the high stretch fabric to offer unhindered movement. Ultra low profile waistband with streamlined adjustment ensures comfort when wearing harnesses or hip belts, whilst the refined fit including new "pre-active stance" patterning allow for new levels of freedom.

MATERIALS

- GRANITE Flex - Recycled Nylon, double weave soft shell with excellent abrasion resistance, 4 way stretch and recovery. Non-fluorocarbon water repellent.

FEATURES

- Integrated LP waistband, is a low profile, clean, harness and pack compatible waistband ensuring all day comfort and gear compatibility
- Back yoke with increased length/height
- New gusset design for improved fit, movement and comfort
- New fit with built-in pre-articulation and a pre-active stance
- Open hand pockets for easy access to essential items
- YKK NATULON® recycled zipped harness and pack compatible LATERAL thigh pocket positioned for ease of movement and use
- Integrated WEBBING + STRETCH waistband, adjusted with minimal tension lock
- YKK NATULON® recycled zipped fly with low profile closure
- Internal hem adjustment for an adaptable climb compatible fit
- Built on the new Mountain Fit block with a pre-active stance, optimising a slim, articulated fit for dynamic movements and high performance
- Available in regular, short and long leg

Freedom of movement is enhanced alongside the fabric with carefully designed fit which includes refined gusset construction. Essential storage options include open hand pockets and secure zipped thigh and back pockets.

MATERIALS

- VECTOR Lite - A lightweight recycled nylon plain weave with 2 way stretch, excellent abrasion resistance and robust hand. Non-fluorocarbon water repellent.

FEATURES

- Half exposed (front), half covered (rear) 50:50 waist belt design
- Back yoke with increased length/height
- New gusset design for improved fit, movement and comfort
- New and improved fit with built-in pre-articulation and a pre-active stance
- Open hand pockets for easy access to essential items
- YKK NATULON® recycled zipped LATERAL thigh pocket positioned for ease of movement and use
- Webbing waistband with updated metal buckle for a low-profile comfort
- YKK NATULON® recycled zipped fly with low profile closure
- Rear YKK NATULON® recycled zipped pocket
- 9" inseam length
- Built on the new Regular Fit block with a pre-active stance, for comfort and movement

MEN'S SLIPSTREAM TRAIL TIGHTS

PRODUCT CODE: **MSTTR**

BLACK

The Slipstream Trail Tights are designed specifically for mountain runners. Made with ECONYL® regenerated nylon yarns, they're durable and unrestrictive, while also boasting a reduced environmental impact. A tailored run-specific fit ensures the pants move with you, and low profile flatlock seams and an internal waist drawcord keep bulk to a minimum. Ankle zippers make the tights easy to put on / take off.

MATERIALS

- Main- VITA with ECONYL® regenerated nylon has a 4 way stretch for unrestricted movement
- Rear knee - Apex-Dry Mesh panels behind knees for improved breathability

FEATURES

- Low profile flatlock seams
- Stretch waistband with internal waist drawcord
- Rear pocket with YKK zip
- Rear gel shot pockets
- YKK ankle zippers
- Reflective details
- Run Fit

- Customisable, body-hugging trail specific COVALENT harness - pulls pack close to body using vertical and horizontal compression
- Two off-centre Montane Click and Go chest harness straps for security whilst moving at fast pace

- Easily adjustable ZephyrAD back system
- 3D moulded foam back panel - comfortable, stable fit with greater breathability and structure
- Lightweight cord compression system - superior total pack compression
- Bivi opening with quick release cord lock adjustment
- Accessible, wrap-around wand pockets with locking security zips - access bottles/snacks on the go, lock a larger bottle poking out of zip
- Large mesh front pocket and side pockets - quick access gear/layers on the move
- Bonded front panel and modular T-hook system - can be used to attach poles (front of pack or side carry), bungee system, extra compression strap - customise to suit your needs
- Hydration bladder compatible
- Shoulder strap pockets with mesh gusset - can fit soft flasks or hard bottles

WOMEN'S TRAILBLAZER 30

PRODUCT CODE: **PTZ30**

ECLIPSE BLUE

MOONSCAPE

Evolving our innovative trailblazer packs to be more adaptable and with less environmental impact for ultimate versatility when moving quickly through the mountains.

USP

- **SUSTAINABLE MATERIALS** - Durable recycled Nylon fabrics throughout the packs ensure reduced environmental impact without compromise
- **MODULAR ADAPTABLE DESIGN** - Montane T-Hook works alongside laser cut holes either side of front panel to offer adaptable easy to reach storage solutions
- **IMPROVED VERSATILITY** - Improved pockets configuration throughout offers more versatile easy access storage, allowing more variety of carry to be stowed securely

MATERIALS

- Main - Raptor Cross Lite 70D 100% Nylon (recycled) with durable UTS Polyurethane Composite coating and a PFC-Free DWR Coating
- Reinforced Base - Raptor Cross 210D 100% Nylon (recycled) Triple Ripstop with PFC-Free DWR Coating
- Lining - Halo 200D 100% Polyester with PFC-Free DWR Coating
- Mesh Pockets - Power Mesh 80% Nylon (recycled) 20% Elastane mesh
- Back Pad - Contact Open Mesh 100% Polyester mesh
- Shoulder Straps & Hip fins - Contact Air Mesh Plus 100% Polyester (recycled)

FEATURES

- Customisable, body-hugging trail specific COVALENT harness - pulls pack close to body using vertical and horizontal compression
- Two off-centre Montane Click and Go chest harness straps for security whilst moving at fast pace

TRAILBLAZER LT 28

PRODUCT CODE: **PTL28**

MIDNIGHT GREY

PEBBLE BLUE

The Trailblazer LT 28 builds on the innovative COVALENT harness system with its customisable body-hugging design and accessible pocket configuration from our market leading Trailblazer packs, but through its construction and fabrication the whole pack has been completely remastered to weigh an impressively low 385g. This pack has been built for active adventures where low weight and speed are paramount.

MATERIALS

- RAPTOR Fly Lite 40 denier Sil Nylon rip stop

FEATURES

- Customisable, body-hugging COVALENT harness
- Two off-centre Montane Click and Go chest harness straps
- Two harness pockets with security zips
- Accessible, wrap-around wand pockets with security zips
- Roll top opening
- Minimal seams with seamless pack body design
- Fully taped waterproof construction
- Integrated bungee for external storage or compression
- Underarm pole carry system

TRANSITION PACK 28L

PRODUCT CODE: **PTR28**

BLACK **NEW**

RIDGE **NEW**

Built for all conditions adventures, the Transition 28L Pack has been designed to endure a wide range of environments. Weather resistant RAPTOR pro lite offers durable protection, which alongside out Clamshell zipped design to maximise performance. Reduced seams further improve weather resistance and increases durability. Weather resistant storage is enhanced by the bonded YKK zip opening front external pocket.

MATERIALS

- RAPTOR Pro Lite - A 4x4mm nylon ripstop with a matt carbonate PU face coating, which is a complex composite polyurethane resin, providing outstanding durability, scratch resistance and unique aesthetic.
- HALO - 200 denier recycled polyester plain weave lining with a non-fluorocarbon water repellent finish.
- RAPTOR Flex - Recycled nylon plain weave, with 4 way stretch. A non-fluorocarbon water repellent finish.

FEATURES

- CLAMSHHELL zipped design to maximise weather protection with a clean timeless style
- Built with minimal seams; improves weather protection, durability, reduces weight and construction
- Bonded water resistant constructed back pads offer comfort and support without socking up excess water
- SEW-FREE bonded YKK AQUAGUARD® NATULON® recycled zipped opening for maximum access with additional wet weather protection
- SEW-FREE bonded YKK AQUAGUARD® NATULON® recycled zipped front pocket for external storage with additional wet weather protection
- T-HOOK compatible tether points for additional gear attachment with removable bungee system included
- LED light attachment point
- External side bottle pockets
- Extended top grab handle with integrated daisy chain loops
- T-HOOK adjustable chest harness

- STASH IT YKK NATULON® recycled zipped removable organisation pouch/pocket ideal for cables
- Internal YKK NATULON® recycled zipped organisation pocket

GECKO VP20+

PRODUCT CODE: **PGV20**

BLACK **NEW**

PLATINUM **NEW**

Our next generation Gecko VP20+ builds on the key principles of bounce free, long distance comfort whilst hitting the trail with larger loads. New lighter weight BOUNCE CONTROL fabric technology stretches with movement whilst significantly reducing bounce when under increased load. Improvements including lighter and faster harness closure system and updated compression and pole carry design further evolve the Gecko to new levels on performance.

MATERIALS

- RAPTOR Cross Lite - A triple ripstop with excellent abrasion resistance combined with aUTS polyurethane composite coating for a 50% increase in tear strength performance. A non-fluorocarbon water repellent finish.
- RAPTOR Flex Lite - Recycled nylon plain weave, with 4 way differential stretch to accommodate expansion while minimizing bounce. Excellent Abrasion resistance and a non-fluorocarbon water repellent finish.
- CONTACT DIA Mesh - Quick dry time for all day comfort. POLYGIENE® permanent odour control.

FEATURES

- New lighter weight BOUNCE CONTROL fabric technology has more stretch horizontally for packability and less stretch vertically to control bounce
- New lighter weight body contact mesh, resists water uptake and dries quicker
- Single fabric for all pockets minimises fabric use and provides a cleaner, streamlined and lighter weight build
- Updated and improved harness shaping for a closer, secure fit whilst improving freedom of movement
- New and improved harness closure system is lighter weight with built in UNI-FORM technology that evenly secures the harness whilst allowing for a customisable fit
- Updated stretch ACTIVE strap for secure harness closure and quick release
- Roll closure design for improved water resistance and load carry

- ALL-IN-ONE side compression and roll closure for improved on-the-go compression, and adjustment
- Updated pole carry system for a more secure and accessible pole carry
- Combined POLYGIENE® StayFresh™ & POLYGIENE OdorCrunch™ permanent odour control
- Versatile hydration bladder sleeve
- Multiple harness pockets for on-the-go access to kit, food and liquid
- Includes 2X Montane 500ml Soft Flasks

GECKO VP12+

PRODUCT CODE: **PGV12**

PLATINUM **NEW**

BLACK **NEW**

Our next generation Gecko VP12+ builds on the key principles of bounce free, long distance comfort whilst hitting the trail at speed. New lighter weight BOUNCE CONTROL fabric technology stretches with movement whilst significantly reducing bounce when under load. Improvements including lighter and faster harness closure system and updated compression and pole carry design further evolve the Gecko to new levels on performance.

MATERIALS

- RAPTOR Flex Lite - Recycled nylon plain weave, with 4 way differential stretch to accommodate expansion while minimizing bounce. Excellent Abrasion resistance and a non-fluorocarbon water repellent finish.
- CONTACT DIA Mesh - Quick dry time for all day comfort. POLYGIENE® permanent odour control.

FEATURES

- New lighter weight BOUNCE CONTROL fabric technology has more stretch horizontally for packability and less stretch vertically to control bounce
- New lighter weight body contact mesh, resists water uptake and dries quicker
- Single fabric for all pockets minimises fabric use and provides a cleaner, streamlined and lighter weight build
- Updated and improved harness shaping for a closer, secure fit whilst improving freedom of movement
- New and improved harness closure system is lighter weight with built in UNI-FORM technology that evenly secures the harness whilst allowing for a customisable fit
- Updated compression system is external for improved additional carry and on-the-go adjustment
- Updated pole carry system for a more secure and accessible pole carry
- Combined POLYGIENE® StayFresh™ & POLYGIENE OdorCrunch™ permanent odour control
- BOUNCE CONTROL back SCAPULAR pocket for accessible rear storage

- Versatile hydration bladder sleeve
- YKK NATULON® zipped recycled BOUNCE CONTROL rear pocket
- Multiple harness pockets for on-the-go access to kit, food and liquid
- Includes 2X Montane 500ml Soft Flasks

WEIGHT (APPROX):

219g

GECKO WP1+

PRODUCT CODE: **PGEWP**

PLATINUM **NEW**

BLACK **NEW**

The Montane Gecko Waist Pack 1+ is designed to move with you, offering a secure, stretch-fit that hugs your waist for ultimate comfort on the trail. With a central compartment and two side stretch pockets, it provides ample space for food, hydration, and essential gear—perfect for short to moderate trail runs. Whether you're chasing personal bests or simply enjoying the outdoors, this waist pack keeps your essentials within easy reach

MATERIALS

- RAPTOR Flex Lite - Recycled nylon plain weave, with 4 way differential stretch to accommodate expansion while minimizing bounce. Excellent Abrasion resistance and a non-fluorocarbon water repellent finish.
- RAPTOR Cross Lite - A triple ripstop with excellent abrasion resistance combined with aUTS polyurethane composite coating for a 50% increase in tear strength performance. A non-fluorocarbon water repellent finish.
- CONTACT DIA Mesh - Quick dry time for all day comfort. POLYGIENE® permanent odour control.

FEATURES

- New lighter weight BOUNCE CONTROL fabric technology has more stretch horizontally for packability and less stretch vertically to control bounce
- New lighter weight body contact mesh, resists water uptake and dries quicker
- Single fabric for all pockets minimises fabric use and provides a cleaner, streamlined and lighter weight build
- Updated front YKK NATULON® recycled zipped pocket uses BOUNCE CONTROL fabric technology for expandable storage that controls movement
- Updated pole carry system for a more secure and accessible pole carry
- Updated stretch ACTIVE strap with low profile quick attach buckle, for secure harness closure and quick release
- Combined POLYGIENE® StayFresh™ & POLYGIENE OdorCrunch™ permanent odour control

MONTANE ULTRAFLASK 500ML

PRODUCT CODE: **PUF50**

MONTANE LOGO

The Montane UltraFlask™ 500ml by Hydrapak® is a compactable flask for quick, easy hydration when on the move. The flask compresses for easy storage and prevents water from sloshing. The new wider top opening allows for quick and easy filling / cleaning whilst the high performance soft silicone bite valve provides a high flow rate.

MATERIALS

- TPU

FEATURES

- Soft, flexible TPU flask body
- 3D base
- 500ml liquid capacity
- Wide screw top opening
- High flow rate soft silicone bite valve
- Dishwasher safe (top rack)
- BPA free/ PVC free / meets or exceeds FDA and EU regulations

WEIGHT (APPROX):

25g / 0.9oz

SIZES	ONE SIZE

MONTANE SOFTFLASK 360ML

PRODUCT CODE: **PSF36**

MONTANE LOGO

The Montane SoftFlask™ 360ml by Hydrapak® is a compactable flask for quick, easy hydration when on the move. The flask compresses for easy storage and prevents water from sloshing. The new wider top opening allows for quick and easy filling / cleaning whilst the high performance soft silicone bite valve provides a high flow rate.

MATERIALS

- TPU

FEATURES

- Soft, flexible TPU flask body
- Tapered shape / base
- 360ml liquid capacity
- Wide screw top opening
- High flow rate soft silicone bite valve
- Dishwasher safe (top rack)
- BPA free / PVC free / meets or exceeds FDA and EU regulations

WEIGHT (APPROX):

PHASE LITE CAP

PRODUCT CODE: **HPLIC**

ECLIPSE BLUE

NEPTUNE BLUE SEA MIST

Waterproof and lightweight, the Phase Lite Cap is constructed from seam-taped GORE-TEX ePE performance shell and features a wicking internal head band, stiffened peak and rear adjustability.

MATERIALS

- GORE-TEX products with Gore performance technology. Plain weave recycled nylon face made from 40 denier yarns with a smooth face, full dull lustre, combined with a recycled solution dyed C-knit backer for soft quiet comfort. Utilising Gore's ePE membrane providing a PFC/PFAS free dwr and membrane technology.
- Wicking knit for soft next to skin comfort

FEATURES

- Internal wicking head band for comfort and moisture management
- Pre-curved stiffened peak
- Rear shockcord adjustment

WEIGHT (APPROX):

40g / 1.4oz

-------	----------

CETUS CAP

PRODUCT CODE: **HCETC**

NEPTUNE BLUE **NEW**

CAPER **NEW** BLACK **NEW**

The Cetus Cap uses highly breathable Petrichor waterproof fabric alongside a lightweight bungee rear adjustment system and stiffened peak to effective wet weather protection

MATERIALS

- PETRICHOR TECHNOLOGY - Nano ripstop recycled nylon 30 denier face textile combined with a super thin waterproof, windproof non-porous hydrophilic polyurethane membrane (non-fluorocarbon water repellency and membrane technology) engineered with maximum breathability for higher aerobic activities. A 20 denier nylon recycled and solution dyed tricot backer.

FEATURES

- Fully seam taped construction
- Reduction of seams improves garment breathability, durability, reduces weight and construction
- Rear lightweight bungee adjustment
- Stiffened pre-curved peak
- Reflective details

WEIGHT (APPROX):

40g
